

CM 43 FDS

CM43 F DS: the two-speed, versatile, practical and efficient single disc machine suitable for various floor cleaning and maintenance work

The CM43 F DS professional single disc machine from Comac is extremely robust but easy to maintain. The two-speed function makes this single disc machine versatile, allowing it to be used for various types of work. The first speed is ideal for daily cleaning and heavy duty maintenance. The second speed makes polishing and crystallization operations easier and quicker. Just one multi-tasking single disc machine that carries out the functions of different machines, with corresponding advantages in terms of convenience and saving. Equipped with gear drive, CM43 F DS is extremely reliable and easy to use.

Thanks to the steel frame and polypropylene carter, this professional single disc machine succeeds in combining comfort and control for the operator with efficient performance and exceptional versatility. CM43 F DS is suitable for heavy duty cleaning of hard and vinyl floors with water, as well as foam or powder cleaning of carpet floors, and for dry polishing of various types of floor.

CM43 F DS is the professional single disc machine that's perfect for cleaning contractors and for floor treatments of hotels and in the HoReCa sector in general, but also Large-Scale Retailing and transport.

CM43 F DS
Working width: 430 mm
Power supply: cable
Drive: gearbox

Key elements and best technologies placed at the service of CM43 F DS single disc machine, to guarantee optimal performance:

THE ADVANTAGES OF CM43 F DS

- Single disc machine recommended for routine floor maintenance, heavy duty cleaning of hard and vinyl floors with water, for foam or powder carpet floor cleaning and for dry service such as de-waxing and polishing vinyl floors.
- Stainless steel frame and PPL carter.
- Powerful motors that ensure excellent washing and polishing results.
- The off-set position of the engine ensures a well-balanced weight distribution, which translates into effortless use of the single disc machine for the operator.
- Detachable power cord makes transport and maintenance easier.
- Ergonomic: the handle can be adjusted to any of the numerous pre-set levels to obtain the most suitable working position.
- Double safety system: the single disc machine is activated only when the handlebar levers and the safety button are simultaneously

pressed. When the levers are released the single disc machine stops.

- Polyethylene tank with graduated scale and lid. The tank can be removed, without using any tool, for easy filling (optional).
- No maintenance, therefore easy-to-use.
- High reliability level, guaranteeing constant productivity.

SPEED SWITCH

STOP&GO

The system for making cleaning operations more economical, optimizing consumption and reducing emissions.

When the machine is temporarily idle the brushes are halted. In this way consumptions are optimized and wastes reduced.

STEEL GEAR BOX

Steel gear box for long life, high reliability and quiet operation.

PESO EXTRA DA 2 KG

Optional 2 Kg weight for increased scrubbing power.
